### GSM Australia Acquires Let's Go Australia

AUSTRALIA – GSM Australia, Voyager Travel, has just announced its acquisition of Lets Go Australia, an established travel company servicing both the corporate and luxury leisure travel sectors for the West Australian and Japanese speaking market.

This acquisition gives the existing Lets Go Australia's corporate client base access to Voyager Travel's extensive experience as well as the very latest technologies which are locally supported by Voyager's own in-house team. It will also give Voyager specialized Japan travel services such as fluent Japanese speaking consultants who are destination experts.

"One thing that will not change is Voyager Travel Corporation's commitment to personal service to our clients," said Richard Savva, CEO, Voyager Travel. "Voyager provides complete accountability with our 100 percent service guarantee backed up by a team of professional travel consultants, each with an average of over 16 years of travel experience. We look forward to welcoming Lets Go Australia's customers into the Voyager fold."

#### **About Global Specialist Markets (GSM)**

GSM represents a unique partnership of independent travel management companies that provide innovative, flexible and competitive solutions to meet International travel needs. Its custom programs deliver truly consolidated management information, increased purchasing power, high-touch service, and the best people, practices and technology in the marketplace.
